PROFESSIONAL EXPERIENCE

Learning & Development Executive

BCPL (VIVO Rajasthan)

May 2025 – Present

Jaipur

- Partner with business and HR stakeholders through quarterly Training Needs Analysis to identify performance and capability gaps and translate them into targeted learning requirements.
- Design application-oriented digital learning experiences that combine curated content, workplace scenarios, assessments and practical activities to support knowledge transfer and workplace application.
- Develop quarterly learning plans and capability-focused interventions, selecting digital learning, instructor-led training, blended solutions and learning resources based on audience needs, business priorities and desired outcomes.
- Build and curate a reusable portfolio of digital learning assets mapped to key capabilities, enabling role- and audience-specific learning journeys rather than standalone courses.
- Work with SMEs, learning technology providers and external vendors to translate requirements into digital and AI-enabled learning experiences, refining content based on learner feedback and learning needs.
- Analyze learning, assessment and performance data to identify participation, adoption and capability gaps, and evaluate learning effectiveness using assessments, learner feedback and manager feedback.
- Drive learning engagement across a geographically distributed workforce through targeted communication campaigns, learning challenges, reminders and recognition mechanisms.
- Solely manage the LMS/LXP ecosystem for 540+ employees across 9 regional business units, including learner integration, course curation and deployment, assignments, tracking, reporting and platform administration.
